Safeguarding Statement

The Cherry Tree Trust respects and values all children and is committed to providing a caring, friendly and safe environment for all our pupils so they can learn, in a relaxed and secure atmosphere. We believe every pupil should be able to participate in all our activities in an enjoyable and safe environment and be protected from harm. This is the responsibility of every adult employed by, or invited to deliver services within The Cherry Tree Trust. We recognise our responsibility to safeguard all who access our site and promote the welfare of all our pupils by protecting them from physical, sexual and emotional abuse, neglect and bullying.

POLICY STATEMENT

Governance within The Cherry Tree Trust recognises the use of its ICT and communications facilities as an important resource for teaching, learning and personal development and as an essential aid to business efficiency. It actively encourages staff to take full advantage of the potential for ICT and communications systems to enhance development in all areas of the curriculum and administration. It is also recognised by governance that along with these benefits there are also responsibilities, especially for ensuring that pupils are protected from contact with inappropriate material.

In addition to their normal access to ICT and communications systems for work-related purposes, governance permits staff limited reasonable personal use of ICT equipment and e-mail and internet facilities during their own time subject to such use:

1. Not depriving pupils of the use of the equipment and / or
2. Not interfering with the proper performance of the staff member's duties

Whilst our ICT systems may be used for both work-related and for sole personal use, the governors expect use of this equipment for any purpose to be appropriate, courteous and consistent with the expectations of governance at all times.

This policy document is issued to all staff before they are provided with laptops, tablets, cameras, USB / portable hard drive devices, mobile phones and passwords giving access to the ICT network.
